

RAC CARBON POLICY TO REDUCE CARBON EMISSION

RAC COMMITMENT POLICY TO REDUCE CARBON EMISSION

Environment protection is of great importance at Rwanda Airports Company, and we are committed to do all possible for carbon emission (carbon footprints) reduction and achieve highest level of energy efficient in line with best practices for carbon management.

To achieve this, we commit to:

- | | |
|---|---|
| <ul style="list-style-type: none">a. Invest in energy-efficient technologies, such as LED lighting, solar panels, and efficient heating and cooling systemsb. Increase the use of renewable energy sources, such as solar and wind power, for airport operationsc. Implement waste reduction and recycling programs across all facilitiesd. Promote the use of low-emission vehicles for airport operations and encourage sustainable transportation options for employees and passengers, | <ul style="list-style-type: none">such as public transportation and carpoolinge. Engage with stakeholders, including airlines, passengers, and local communities, to promote awareness of our carbon reduction efforts and collaborate on initiatives to reduce emissionsf. Use of covered bins for waste collection within Airportg. Ensuring that all manholes and optical pit are fully covered to avoid the carbon emissions |
