

Kigali: 30 MAY 2023

N° 338/RAC/MD/PRO/KR/2023

To:

All interested bidders

Reference is made to the tender N° 027/NCB/G/2022-2023/RAC for upgrade of the existing VOIP communication switching system & recording;

Following the request for clarifications raised by some of prospective Bidders, Rwanda Airports Company would like to provide the following clarifications for your consideration.

N°	Clarification requested	Response
1	Project time frame of two (2) months	After contract signature, we need a project execution of 02 months because we know all items/hardware are COTS (Commercial-Off-The shelf), then no reasons for delaying the projects)
2.	HVF channel requirement	The total number for the VHF transceivers (extended frequencies) is four (04) configured as standalone channels (not as main/standby) In additional to the above, there are four (04) transportable VHF transceivers (not hand held) of power varying between 10w and 15 w
3.	Telephone lines	The phone types are as follows: 1. Analogue Phones: 05 2. IP Phones: 03 3. ISPN: 06

NB: In additional to the above, there are recording of hand held voice communications and VSAT Direct speech communications;

Sincerely,

Charles HABONIMANA
Managing Director
